

## A New Generation of PLC Controlled Filleting Machine for Large Fish

- **TakeControl** – easy to use operating system
- Easily handles medium to XXXLarge sizes of white fish.
- Increased yield
- Improved fillet quality due to innovative technical solutions in the filleting process
- Thick and complete tail ends ensure better skinning process and fillet quality
- Multiple language user interface
- Programming and maintenance over VPN connection from anywhere in the world

**Robust Construction in Combination with Innovative Technical Solutions Results in Stability of Settings. This Guarantees Maximum Yield as Well as Quality of Fillets.**

- Simple and space-saving design
- Easily accessible maintenance database
- Instant troubleshooting
- Exemplary Work Facilities
- Change of settings at the push of a button
- The operator has a better overview of the filleting process – allows for better quality control

**Maximum Durability – Minimum Maintenance – Increased Yield and Profitability**

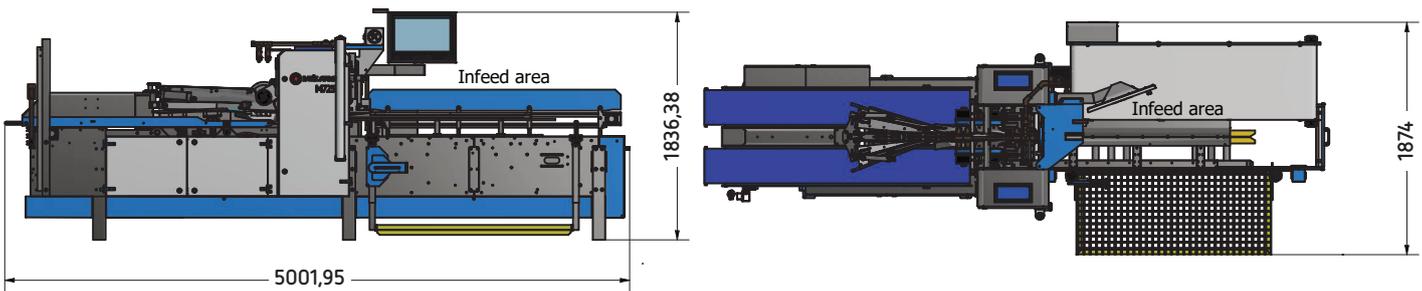

### Optional

- Combinable with M825 Skinning Machine

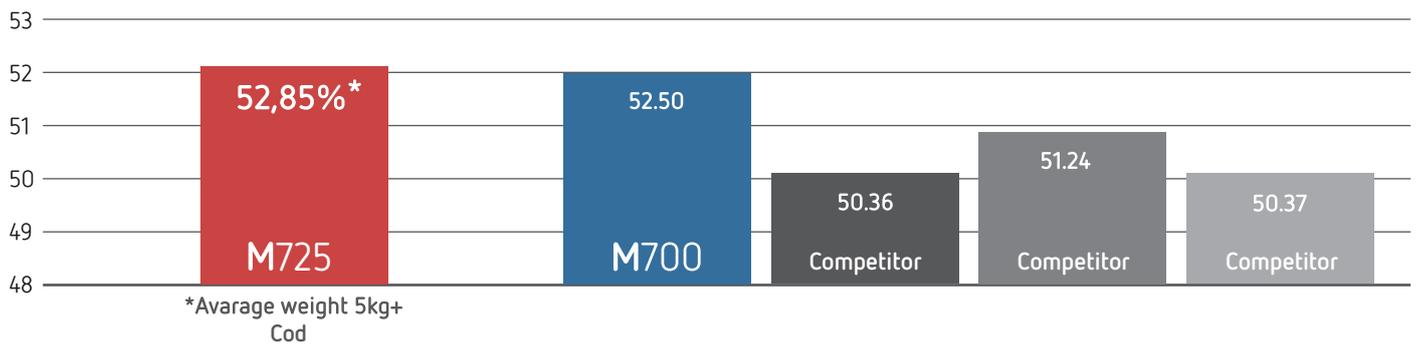

## Technical Data:

<b>Fish Species:</b>	Cod, haddock, saithe (pollock), ling, tusk and similar species
<b>Operation:</b>	1 person
<b>Working Range:</b>	60-130cm/4-20 kg (cod w/head) ling up to 150cm w / head
<b>Cutting Speed:</b>	Fully automatic according to fish size
<b>Reverse Drive:</b>	Operated with an electric motor (dislodging a lodged fish/settings)
<b>Throughput:</b>	Up to 27 fish /min
<b>Water Consumption:</b>	20 L / min (60L w/M825)
<b>Water Supply Connection:</b>	3/4 / 1" bsp for M825 water pump included
<b>Power Consumption:</b>	7.8kw w/ M825
<b>Voltage:</b>	400V
<b>Current Requirement:</b>	16A
<b>Weight:</b>	2.250 kg / Weight w/ M820 Skinning Machine: 2.650 kg
<b>Quality of Material:</b>	316 Stainless steel. Electropolished stainless steel. POM plastics. Antibacterial DuPont™ Corian® for stationary surfaces.
<b>Automatic Programmable Internal Washing System</b>	
<b>Automatic Lubrication System</b>	
<b>Electrically Equipped w/ control panel for M825 Skinning Machine and M925 Fish Frame Machine</b>
